Summary

A highly motivated and results-oriented Network Engineer with a solid foundation in network protocols, security best practices, and infrastructure design. Proven ability to troubleshoot complex network issues, implement robust security measures, and maintain optimal network performance. Seeking a challenging role where I can leverage my skills and experience to contribute to the success of a dynamic organization.

Skills

- Cisco Routers (Configuration & Troubleshooting)
- Firewalls (e.g., Cisco ASA, Palo Alto Networks)
- VPNs (IPsec, SSL/TLS)
- TCP/IP Networking Fundamentals
- Network Security (IDS/IPS, Firewall Management)
- Wireless Networking (802.11 a/b/g/n/ac)
- LAN/WAN Design & Implementation
- Routing Protocols (e.g., OSPF, BGP)
- Switching Technologies
- Network Monitoring Tools (e.g., SolarWinds, PRTG)

Experience

NetSolutions Ltd. | Network Engineer | 2017 – Present

- Designed, implemented, and maintained the company's core network infrastructure, supporting over 150 users.
- Troubleshooted complex network issues, including routing problems, connectivity failures, and security breaches, minimizing downtime.
- Implemented and managed firewall rules to protect against unauthorized access and malicious attacks.
- Configured and maintained VPN connections for secure remote access.
- Monitored network performance using various monitoring tools and proactively identified potential bottlenecks.
- Participated in the planning and execution of network upgrades and expansions.
- Ensured compliance with industry security standards and best practices.

Education

Vidyavihar Institute of Technology | Diploma in Computer Engineering | 2017

- Relevant coursework included: Networking, Data Structures & Algorithms, Operating Systems, Database Management.

Projects

- **Network Security Implementation:** Led the implementation of a new firewall and intrusion detection system (IDS) to enhance network security posture.
- **VPN Configuration:** Successfully configured and deployed VPN solutions for remote

employees, ensuring secure access to company resources.
